Our History

When A&M Trading Co. was established in 1946, our founder, Simon Foster, determined a company philosophy: Our customers are entitled to quality, service, and above all, integrity. Historically, our success in supplying OEM and replacement parts both nationally and internationally has been based upon that formula. We thank you for your business and pledge to serve your needs in a concerned and responsible manner. Integrity is the cornerstone of our foundation.

Dynatron Industries is a high volume US distributor of superb quality grease fittings used in maintaining and lubricating machinery and vehicles in a wide diversity of industries throughout the world. All fittings meet or exceed J534 specifications
